Dear Everybody,

I like writing to my students -  
it is a further channel of communication.  
Some of you may like to write to  
me. If you do you will get personal  
replies.

Last Tuesday each of us was  
doing very different things: P  
was in Epernay with her extended  
family while another person was looking  
after her children, I think in Slovakia.  
~~Sara~~<sup>W</sup> was surfing the Internet on  
that day. I was in Central Brazil  
giving a plenary at a teachers' Conference.  
(Newcomers: we exchanged this information  
last night, some of us)

Looking forward to hearing  
from you,

MARIO
