Dear Harib,

I hope (a) that you had a good
~~to~~ day in Wapping (b) that Poland will
be or has been a real window on the
Slave World and that HLT got
enthruses you.

How have you lived this Danish
course - you will say and feel "that
course"? Could you have avoided yr difficult
adjustment to them on Monday? Could you
have stopped Bra + S stuff influencing
your kindness on Wednesday.

How about a clean-out and
using quite new people to visit next
time? Dangerous, but more awakening
for you.

How about a total mental recasting
of the course.

How about converting your work
on the book with Gill?

Don't forget your new angle:

Not looking at target culture
through own culture spectacles.

Assuming artificial angles to

free you from own narrowness

to go towards an educated

"free" anthropologist standpoint.

Have fun
