Hi Going-Home People,

T.A. has an interesting thinking frame about people's orientations on a course like this 20 versions one. BEING, HAVING, DOING. BEING is the earliest one in the baby, HAVING is the next phase, "I grab it and taste it". DOING is when real play starts.

I wonder how many of you have been mostly in one of these three states over the course?

This morning Sally will offer a rapid series of advanced exercises for people in a DOING mood which should also satisfy HAVING folk. I will offer people more in BEING mode the Disney Creativity framework, which is excellent to share with your students. You have 2 tutors so it is a cinch for us to offer you a choice, which we do respectfully and non-judgementally.
