

Sunday July 5, eve of feast of Cyril and Methodius.

Dear 15 and Dear 8,

I am not one of those trainers who feels the last few hours are decompression time or somehow a lighter time. For people leaving ^(the 15) I feel my job is to try and make sure we end with a bang, not a whimper. For people staying, I need to make sure that the middle point of their course is strong and relevant.

Can I give you some thoughts for this last period of the $5\frac{1}{2}$ day course?

I Can you please spend the first 30 mins devising, writing and completing your own, personal course questionnaire. This need not be a copy of ones you use on the same schools. It should ask you about what your own unique $7\frac{1}{2}$ (or $5\frac{1}{2}$) days have been like. Forget about the others - think about your personal course.

We need to finish this work by 11.40.

15, Dobry(ou) journey
8, see you tomorrow.

Pranis
