

Dear homing People,

How are you at  
losures? I am really not good at this  
part of a course.

I feel, though, very  
excited about September, which is  
when this course actually starts.

What we have done is the warm-up  
for your next school year, as I  
felt in Feb listening to Marianne  
yesterday lunchtime.

What we have done together  
is to bring some food together. You  
will cook it with your students.

In a curious way, they are the  
main participants on this course.

I have really enjoyed <sup>prospatively</sup> working with  
them.

A hug to each,
